1. Introduction

The early years of a child's life are the most significant as far as his/her development is concerned. A Cylch Meithrin offers every young child a number of valuable experiences. The successful development of the Cylch Meithrin depends largely upon the support of parents/carers/guardians and the local community.

Parents/carers/guardians are responsible for establishing a Society in the first place and this Society will be responsible for establishing the Cylch Meithrin.

The Society will be responsible for electing a Voluntary Management Committee to be responsible for the day to day management and running of the Cylch Meithrin and acting as the employer including appointing, employing, supporting and managing staff.

The aim of this booklet is to highlight the main elements a Voluntary Management Committee should consider when appointing and managing staff.

This booklet offers guidance but Voluntary Management Committees should also refer to the **Cylch Meithrin Management Guidance** for further information.
