LEGAL STRUCTURE

Establishing the cylch as a charity

There is an information pack and support available to establish the cylch as a charity with the Charity Commission. It is a requirement for each cylch with an income in excess of £5,000 to register as a charity. See below for explanation of the difference between Charity and Charitable Incorporated Organisation.

Establishing the cylch as a Charitable Incorporated Organisation ▲

Mudiad Meithrin recommends that each cylch establishes itself as a Charitable Incorporated Organisation, which is different to a Charity. The structure provides more protection for trustees and committee members, especially if the cylch had to close and if the cylch was insolvent. Mudiad offers a service of establishing the cylch under this structure with the Charity Commission, this includes:

- pack which includes constitution model and essential forms that needs to be completed and signed by the Committee.
- information pack that provides detailed explanation of the structure and the expectation for correct compliance.
- induction training for the Committee which provides explanation on the structure, the safety it provides and how to comply with the requirements (e.g. annual account, accounts audit)
